

QUICK START GUIDE

1 MEET REVIBE CONNECT

Revibe Connect is resistant to freshwater splashes (e.g. hand-washing).

Do not submerge in any liquid (e.g. baths, swimming pools).

Do not allow the device and charging equipment to come in contact with **salt water or similar liquids**.

If you think your device has been exposed to unapproved liquids, please discontinue use and contact our customer service department for possible replacement as salt water, etc. can cause degradation.

To clean, wipe with a fresh cloth.

2

CHARGE REVIBE CONNECT

Use a UL listed charging cable and wall plug; we recommend using original Revibe charging equipment.

Charge daily and unplug when charging is complete (a full charge **takes 2-3 hours**) to maximize battery life.

Below that is a blue header with a hamburger menu icon, a back arrow, and the title 'Schedule'. The main area is a grid with days of the week (Mon-Fri) as columns and time slots (6 am to 3 pm) as rows. The grid contains blue boxes for classes (e.g., Math, Science, Spanish, History) and green boxes with a bell icon for text reminders. OUR STORY

Once upon a time, one school psychologist had heard enough talk about helping students with attention issues, and decided to do something about it.

Tired of the technology industry leaving out those who struggle with focus, he invented something to help close the learning gap and level the playing field.

Something that could not only get people back on-task, but help them to become more confident and self-sufficient.

With this notion, Revibe was born.
